

VAPOR

HIGH PERFORMANCE COMPRESSION TECH SUIT

ADVANCED HYDRO-REFLECTIVE TECHNOLOGY

Lightweight compressed textile repels water to increase your speed ratio

OXYGEN EFFICIENT PANEL CONSTRUCTION

Unique internal panel design adds compression to maximize oxygen efficiency while reducing muscle vibration and maintaining optimal body stability

WELDED SEAMLESS TECHNOLOGY

Sleek bonded construction reduces drag friction over the entire suit

WATER-TIGHT EDGES

Silicone edges create a comfortable grip against shoulders, legs, and waist

FORM FITTING

Reinforced construction and lay-flat seams create a compression fit

THE VAPOR TECH SUIT uses hydro-reflective technology to repel water and increase your optimal efficiency. The suit is constructed from a premium Italian fabric and is made in the EU. The Vapor's internal panel construction reduces muscle vibration and maintains core stability by compressing critical

areas of the body. The welded and lay-flat seams create a compression fit to reduce friction while improving reliability. The silicone water-tight panel edges provide a comfortable grip against the shoulders, legs, and waist. Designed in California at the FINIS Stroke Lab.

TECHNICAL INFORMATION

- **Advanced Hydro-Reflective Technology**

Lightweight compressed textile repels water to increase your speed ratio

- **Oxygen Efficient Panel Construction**

Unique internal panel design adds compression to maximize oxygen efficiency while reducing muscle vibration & maintaining optimal body stability

- **Welded Seamless Technology**

Sleek bonded construction reduces drag friction over the entire suit

- **Water-Tight Edges**

Silicone edges create a comfortable grip against shoulders, legs, and waist

- **Form Fitting**

Reinforced construction and lay-flat seams create a compression fit

- **Made in the EU of Italian Fabric**

Designed in California at the FINIS Stroke Lab

- **Fabric Composition**

Woven 65% Nylon, 35% Elastane
